

## Safety Information

### IMPORTANT SAFETY INSTRUCTIONS

When using electrical products, basic precautions should always be followed, including the following:

- READ AND FOLLOW ALL SAFETY INSTRUCTIONS.**
- This product is for indoor use only.
- This seasonal product is not intended for permanent installation or use.
- Do not mount or place the product near gas or electric heaters, fireplaces, candles, or other similar sources of heat.
- Do not secure the wiring of the product with staples or nails, or place on sharp hooks or nails.
- Do not let lamps rest on the supply cord or on any wire.
- Unplug the product when leaving the house, when retiring for the night, or if left unattended.
- This is an electric product and not a toy! To avoid risk of fire, burns, personal injury and electric shock it should not be played with or placed where small children can reach it.
- Do not use this product for other than its intended use.
- Do not hang ornaments or other objects from cord, wire, or light string.
- Do not close doors or windows on the product or extensions cords as this may damage the wire insulation.
- Do not cover the product with cloth, paper, or any material that is not a part of the product when in use.
- Read and follow all instructions that are on the product or provided with the product.

### SAVE THESE INSTRUCTIONS

10	Triangle Bolt - Spec M6*18mm	4 PCS

## Christmas Tree Sku # 000 000

Choose a location near a wall outlet, begin to assemble the tree.

Follow below steps:

- Connect part 1 to 2, then screw part 7(Bolt).
- Connect part 2 to 3, then screw part 7(Bolt).
- Insert tree section 9 (I) to bottom cross frame(J), and then insert tree section 8 (H) to section 9 (I), then section 7(G) to section 8 (H).
- Connect part 3 to part 4, then screw part 7(Bolt).
- Connect part 4 to part 6, then screw part 8(Bolt).

#### Assembling the tree

- Remove the protective caps, insert the section 6 (F) into the section 7 (G), and insert the section 5 (E) into the section 6 (F).
- Insert the section 4 (D) into the section 5 (E), and insert the section 3 (C) into the section 4 (D).
- Insert the section 2 (B) into the section 3 (C), insert the tree top (A) into the section 2 (B).
- Shape the branches to your preference by working from the bottom to the top. When adjusting branches, ensure that all wires are free of branch hinges.
- Connect the plug(s) securely to the extension cord(s) as per the color labels indicated in attached photo and insert the green label extension cord plug into the wall outlet.
- When finished shaping the branches, slightly upswipe all branch tips for a uniform look.

**Caution:** To avoid over current, please connect lighting string according to the strings layout for the tree. (see diagram below)
